PERSONAL DETAILS

Nationality: Kenyan

Date of Birth: 16 June 2004

Desired Position:

Software Engineer

Information Systems Analyst

KEY COMPETENCIES

- › Data Accuracy & Attention to Detail
- › Analytical & Problem-Solving Skills
- › Time Management & Multitasking
- › Confidentiality & Data Security
- › Team Collaboration & Communication

PROGRAMMING

- › Java
- › JavaScript
- › HTML5 & CSS3
- › React.js
- › MySQL
- › Basic Python

TOOLS & PLATFORMS

- › Git & GitHub
- › Bootstrap
- › Supabase / Firebase / Sanity
- › Microsoft Office Suite
- › RESTful Concepts

CAREER OBJECTIVE

Motivated and detail-oriented Software Engineer, Information Systems Analyst, and Full Stack Developer with a strong foundation in software development, systems analysis, and modern web technologies. Aiming to apply technical expertise, analytical thinking, and problem-solving skills to design and develop innovative, scalable, and user-centered digital solutions. Committed to growing as a versatile technology professional by contributing to efficient information systems, building robust full stack applications, and supporting organizational success through quality-driven software solutions, while thriving in dynamic, collaborative environments.

WORK EXPERIENCE

Front-End Web Developer - Pizza Technologies

2024 - Present

- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript, React.js, and Bootstrap.
- Collaborated with designers and backend developers to implement modern UI/UX solutions.
- Performed testing, debugging, and optimization to improve application performance and usability.
- Participated in code reviews and agile team meetings to enhance development quality.
- Supported backend integration and data handling, gaining practical full stack development exposure.

Tools: *React.js, JavaScript, HTML5, CSS3, Bootstrap, Git, GitHub*

ICT Attachee - State Department for Social Protection and Senior Citizen Affairs

27th April 2026 - 24th July 2026 · ICT Department

- System and Application Development (Helpdesk Management System).
- Software testing, documentation, deployment, and hosting.
- Network configuration and troubleshooting (LAN/WAN & Wi-Fi).
- Operating system installation, configuration, and updates.
- Enterprise application installation and configuration (e.g., IFMIS).
- Device driver installation and configuration.
- Software installation and maintenance (Microsoft Office and other applications).
- Computer hardware maintenance and troubleshooting.
- Printer installation, configuration, and maintenance.
- PC assembly, deployment, and workstation setup.
- Data backup, system recovery, password reset, and PC reset.
- UPS configuration, maintenance, and restart.
- ICT helpdesk and end-user technical support.
- Meeting and conference room ICT setup and technical support.

Information Systems Analyst - Academic & Practical Exposure

- Analyzed user requirements and organizational workflows.
- Modeled system processes and documented System Requirements Specifications (SRS).
- Assisted in designing data-driven solutions aligned with organizational goals.

Full Stack Developer - Academic & Project-Based

- Built and integrated front-end interfaces with backend logic and databases.
- Demonstrated understanding of end-to-end application development and system architecture.
- Worked with Java, MySQL, and RESTful concepts.

LANGUAGES

English - Fluent

Swahili - Fluent

Data Entry Specialist

- Captured, validated, and maintained digital records with high accuracy.
- Worked extensively with Microsoft Excel, Access, and Office tools.
- Ensured confidentiality, integrity, and proper organization of structured datasets.
- Performed file conversion (Word/PDF/Image), data cleaning, and basic image editing.

PROJECTS

Inventory and Sales Management System

- Developed a web-based system for managing products, stock, and sales.
- Technologies used: Java, MySQL, HTML, CSS, JavaScript.
- Focused on usability, inventory tracking, and reporting.

Hotel Management System

- Developed a comprehensive web-based Hotel Management System (HMS) to automate and streamline hotel operations, replacing manual and fragmented processes.
- Features included room booking and reservations, customer management, payment processing, room status tracking, and report generation.
- Enabled real-time updates for room availability, housekeeping status, and booking confirmations to improve operational efficiency.
- Built using HTML, CSS, and JavaScript for the front-end, with a structured backend system managing data consistency across bookings, customers, rooms, and payments.
- Focused on usability, data integrity, and seamless coordination between front desk staff, administrators, and housekeeping teams.

EDUCATION

Bachelor of Science in Applied Computing (Software Development Major)

KCA University, Nairobi · September 2023 - Current

Kenya Certificate of Secondary Education (KCSE)

Thatha High School, Machakos · January 2019 - December 2022

- Mean grade C+.
- Certificate in Computer Applications - mean grade A- (out of possible A): Introduction to Computers and Operating Systems, Microsoft Word, Microsoft Excel, Microsoft Access, Desktop Publishing (MS Publisher), Internet and Email.

Kenya Certificate of Primary Education (KCPE)

Kasanga Primary School, Kitui · January 2014 - December 2018

- Score of 358 out of 500 marks (Grade B).

Lower Primary Education

Our Lady of Lourdes Primary School, Machakos · January 2006 - December 2013
